1. Farm Details

Full name(s) of Applicant
(this is the name under which you would hold shares e.g. Ltd, Trust, Partnership)

2. Individual Name(s) of Applicant

Contact Person:

Position (eg Director/Trustee/Partner/Manager):

Registered Farm Business Address:

Postal Address (if different from above):

Phone:

Cell Phone:

Email:

3. Farm Details

Total Area of farm:

Effective Area (to be used for dairying):

Support Block Area:

Herd size:

Fertiliser History:

Feed used:

Does your herd currently hold a Leptosure certificate? Yes No

4. Certification (please tick one)

NOP EU In Conversion Conventional

Certification through: Assure Quality Bio Gro

Are you a member of any Organic peer support or discussion groups? Yes No

If yes, please provide details:

If no, would you be interested in belonging to an organic farmer support group for an annual membership fee? Yes No

5. Farming System

What is your current farming system?

- System 1 - All grass self-contained, all stock on the dairy platform**
No feed is imported. No supplement fed to the herd except supplement harvested off the effective milking area and dry cows are not grazed off the effective milking area.
- System 2 - Feed imported, either supplement or grazing off, fed to dry cows**
Approximately 4 - 14% of total feed is imported. Large variation in % as in high rainfall areas and cold climates such as Southland, most of the cows are wintered off.
- System 3 - Feed imported to extend lactation (typically autumn feed) and for dry cows**
Approximately 10-20% of total feed is imported. Westland - feed to extend lactation may be imported in spring rather than autumn.
- System 4 - Feed imported and used at both ends of lactation and for dry cows**
Approximately 20 - 30% of total feed is imported onto the farm.
- System 5 - Imported feed used all year, throughout lactation & for dry cows**
Approximately 25 - 40% (but can be up to 55%) of total feed is imported.

*Note: Farms feeding 1-2kg of meal or grain per cow per day for most of the season will best fit in System 3.

6. Information

I have viewed:

- The website Yes No
- Received material from a shareholder Yes No
- Received material or information from the company Yes No
- Discussed at an event Yes No

I wish to become a wet/dry shareholder Wet Dry

I wish to receive further information Yes No

I would like more information around certification Yes No

7. Supply

I am interested in supplying milk in the _____ season.

Are you currently supplying another dairy company? Yes No

If yes, who?

Are you currently selling raw milk? Yes No

If yes, how many litres?

Have you submitted a cease to supply? Yes No

Will you be submitting a cease to supply? Yes No
